## Upside Software Announces UpsideContract V6.5

---

### UpsideContract V6.5 - Feature Packed to Offer Users Leading Edge New Functionality & Speed

EDMONTON, ALBERTA, CANADA —Upside Software Inc., the global leader in enterprise contract management software, has announced the release of UpsideContract Version 6.5, a feature-packed enhancement for its award-winning software.

Upside Software continues to add new customers at tremendous rates and develop its award winning product suite. We have listened to what our customers have said and have delivered this latest version of our industry leading software to provide even greater functionality and ease of use. The need for effective and efficient contract management software has been a key focus in the industry. Companies are seeking ways to streamline their processes and leverage software with industry best practices. UpsideContract, which is the leading contract lifecycle management solution available, is in extremely high demand across organizations of all sizes and industries.

In late 2009, a report published by Mickey North-Rizza of AMR/Gartner, rated Upside Software as the #1 Contract Lifecycle Management provider (from a list of 17 vendors), based on 17 different elements, including speed to value, user interface/experience, contract authoring, general business strength and other key items. Upside scored the highest possible (i.e. 5 out of 5) in 16 of the 17 categories.

“The team at Upside has been working hard and is proud to present the latest version of UpsideContract, based on feedback and suggestions from our customers,” said Ashif Mawji, President & CEO, Upside Software. “V6.5 was created by listening to what our customers were asking for and providing intuitive solutions to enable users to do more with less.”

Enhancements to UpsideContract V6.5 include:

- Improved loading times throughout application – performance is always a key focus.
- Predictive Analysis on Visual Workflow.
- Usability enhancements and upgrades in key areas of the application.
- Business Entity Enhancements.
- User Defined Field Grouping Capabilities.
- And many more...
